

TREKHY®

AUTONOMOUS POWER GENERATOR

APPLICATION

TREKHY® is a fuel cell-based power generator delivering 30 W of electricity to charge portable equipment.

For energy-dependant situations, **TREKHY®** solves the issue of reliably powering multiple devices simultaneously anywhere, anytime.

High-tech, yet simple to use device, **TREKHY®** is your side kick for critical missions, as a rugged, portable and stand-alone solution.

BENEFITS

Stand-alone solution

Light weight

Easy handling & Safe operation

High durability & Long shelf life

No maintenance

Air transportable

Carbon-free

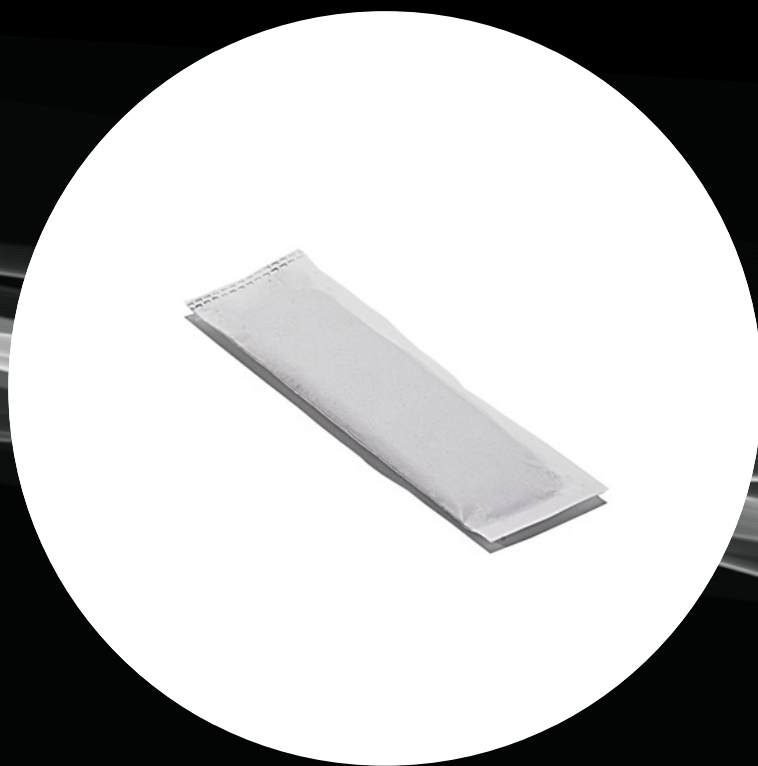

Lithium-free power solution

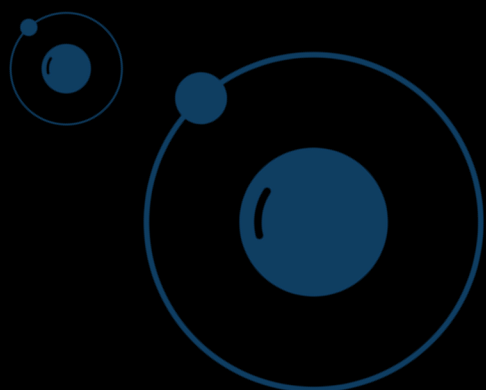

Reactor

Powder Pack

Generator

2x 5V USB ports
2x 12V cigar sockets

Field lighting power
Mobile devices charger

Dimensions: 19 x 27 x 27cm
Weight: 3.7kg + 50g/pack
Nominal output power: 30W
Running time: >60min (1 pack)
Operating temperature: 0-45°C

Disaster relief

Military & security
